PRODUCT SERIES

Dursol

DURSOL was founded by Otto Durst, as a custom metal works operation.

1929

The hotplate cleaning paste was filled into tubes, and marketed under the name of "Edelglanz" (premium shine). This name would later be changed to "Edel-Chromglanz (metal polish), and is today an international market leader under the name of "DURSOL Metal Polish".

1934

AUTOSOL® presents its products for the first time at the International Automotive Exhibition (IAA) in Frankfurt

WHATEVER TYPE OF BOAT YOU OWN, IT DESERVES NOTHING BUT THE BEST...

With a strong and established track record in innovation and manufacturing excellence throughout the Automotive Industry, comes now the same high standard of expertise, innovation and technology for the Marine Industry.

RESEARCH & DEVELOPMENT

WHERE IDEAS BECOME INNOVATIONS

The AUTOSOL research and development department has future oriented product innovation combined with many years experience, modern production techniques, and premium-quality components. This is the foundation for all AUTOSOL products. Strict quality control guaranties consistent results with the highest standard.

Additionally, environmental compatibility is very important to us. The products are biodegradable and meet or exceed the legal regulations.

INGREDIENTS

It is being established fact that a reader will be distributed by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more or less normal distribution of letters, compared to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy.

It is being established fact that a reader will be distributed by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more or less normal distribution of letters, as opposed to using
