Multi Cleaner Solvent

Properties

MULTI CLEANER SOLVENT is a cutting-edge solvent specially designed to dissolve glue stains (even very old ones), resin, tar, and grease that can be found on boats. It is particularly effective for removing, for example, traces of boat registration stickers. It also works very well on pine resin when boats are out of the water.

ADVANTAGES :

- It has excellent solvent and degreasing properties, equivalent to those of traditional solvents (chlorinated solvents, dearomatised hydrocarbons, limonene, etc.).
- No hazard symbol. Not dangerous for the user or the environment.
- It has a slow evaporation rate, giving it time to work on the various stains.
- It is safe for the materials commonly used on boats and cleans without damaging them.

Instructions for use

Respect usual safety measures for the use of chemical products and wear the appropriate individual protection equipment.

After applying with a microfibre cloth, leave it to act and then wipe treated surfaces with absorbent paper.

Technical specifications

Physical state: liquid **Colour:** colourless **pH:** ca. N/A **Density:** ca.0,83

Storage: keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.

Reference and packaging

NC24ML-250 Bottle 250ml / 8,5oz
